

DELAWARE VALLEY SCHOOL DISTRICT

REQUEST FOR BUS SERVICE TO PRIVATE CHILD CARE

The Delaware Valley School District will consider requests for change of bus assignments to a private child care provider under the following conditions as set forth in Delaware Valley School Board Policy 810: Pupil Bus Transportation (Section 2 A 5):

- The request is submitted and signed by the child(ren)'s parent/guardian.
- The student remains in the same school attendance area.
- The request is for the remainder of the school year.
- There are seats available on the bus.
- The stop is on an existing school bus route.
- The stop is used both to and from school.
- The stop will be used on all days including delayed openings and early dismissals.
- The private child care provider is listed on the child's emergency card
- The change will require three (3) days to implement.

I authorize the Delaware Valley School District to transport my child(ren) to the private child care provider indicated below. I understand that this is a permanent change for everyday, both to and from school and I will be allowed only one change from the stop of my residence this year. I will not request any other change for any reason. Also, I understand that overcrowding on the new bus to which my child(ren) is/are assigned may cause the Delaware Valley School District to revoke permission for this change.
