Groundhog's Day

BY: Sekai

February second, we celebrate Groundhog's Day. 25,000 people go to Punxsutawney, PA to see Phill. The holiday

originated with German settlers in Pennsylvania, that celebrated it as Candlemas Day, and on this day if the sun came out six more weeks of winter weather. Sometime later people let a local groundhog make the decision about winter's length. Then the Punxsutawney Newspaper declared the 2nd of February Groundhog Day, and then the tradition spread through the U.S.A.

Absolutely Fabulous!

Super Fan: Mr. Z

Mr. Z adores the Eagles because he grew up cheering for them! Mister Z favorite player is Randall Cunningham because he just played well. He predicts the Eagles will win Super Bowl LVII 31 to 14. He does not bet on his team because he thinks he will jinx the Eagles winning Super Bowl LVII.

The Kansas City Chiefs won Super Bowl LVII, and they have taken home the Lombardi Trophy for the second time in four years.

The score was 38-35 Chiefs with just under 68 thousand fans at the State Farm Stadium in Glendale, Arizona, and an estimated 113 million people watching the Kansas City Chiefs defeat the Philadelphia Eagles.

On a rainy day, the DVE-News/TV reporters set out to interview Miss Jacklyn Scott of **Craft Into Art** in Dingmans Ferry, PA. We were met by a cheery Miss Jacklyn in her studio. Taryn started off the interview. Miss Jacklyn said she had been doing ceramics since she was very young. Her favorite piece she has ever made was a beautiful green vase that she showed us in the studio. She wanted to become an artist because her mom got her into it when she was young. Her newest piece of art was a very large unfired vase, and her best-selling piece of art is mugs. As she said, everyone loves mugs.

February 14th

By: Sekai

The February 14th is usually celebrated as Valentine's Day, it is a day of love. Nobody knows where Valentine's Day came from because there were at least three different St. Valentines in the early Catholic church. Although there are few other holidays on the 14th like National Organ Donor Day, Ferris Wheel Day, and Cream Filled Chocolate Day. Two fun facts about V-day are that nearly one billion cards are sent out if you include the number of cards given to teachers. That makes it the second most popular holiday for cards.

4-Foot Maine Coon Kitty by Eleanor

That's one big kitty! Finn, a massive nine-year-old Maine Coon from San Carlos, California, clocks in at a whopping 4.27 feet long. The cat's owner, Natalie Bowman, 32, spends \$150 a month feeding the feline, which she walks on a leash. While strangers often mistake Finn for a dog or even a bobcat, Bowman insists he's a gentle giant who loves being spooned.

Learning to Speak Japanese by Connor

I'm excited to learn Japanese. I am currently learning Japanese on Duolingo. Sadly, I'm only on Unit 1. But I'm almost finished with it. My goal is to get to the end

of Unit 2 by May 20th. She was some of the stuff I know so far. "Say some stuff in Japanese." I'm also learning how to read and write in Japanese. I want to learn Japanese because I really like Japan and their culture. "Thank you, you're welcome". I hope someday I'll be able to have a whole conversation in Japanese. That is why I'm excited to learn Japanese, some of my goals when learning Japanese, and why I want to learn Japan.

Someone That Inspires Me
By: Ally :) 14

My dad inspires me because he's excellent at fixing things around the house. I also think he is great at sports especially at basketball. I want to be as good as him at basketball. He also does well at softball pitching and hitting home runs. Even though I do hit well he hits better.

GOLDFISH by Ariel O

Someone or something that inspires me is Goldfish! Goldfish are one of my favorite snacks and there's so many flavors, there's pizza, rainbow, cheddar or original, but my personal favorite is Xtra cheddar. The first Goldfish was made by a baker. The story goes that he wanted to make a birthday present for his wife, who was a Pisces whose symbol is fish. The results were lucky, golden crackers that he called Goldfish.

Goldfish were introduced to the United States in 1962 by Pepperidge Farm founder Margaret Rudkin. Goldfish have a high amount of sodium at 250 gm per serving, but not a lot of sugar. Pepperidge Farms churns out 142 billion Goldfish crackers each year which is a ton of Goldfish! Did you know that Goldfish got their name by a horoscope sign? (Which is a Pisces the symbol of the fish)

I've always loved Goldfish. My dad says, "it runs in the family." We always get them when we go to Price Chopper, and they never last more than a week in our house. My brother and I love the rainbow-colored ones. The first time I tried the pizza, I thought it was a mini pizza. It is always the best feeling in the world when I come home from a long day of school and see a new bag of Goldfish.
