St. Patrick's Day, Daylight Savings and finally, The First Day of Spring

Each year March and June end on the same day of the week.

Easter is sometimes celebrated in March.

## Star Wars Games by Rocco

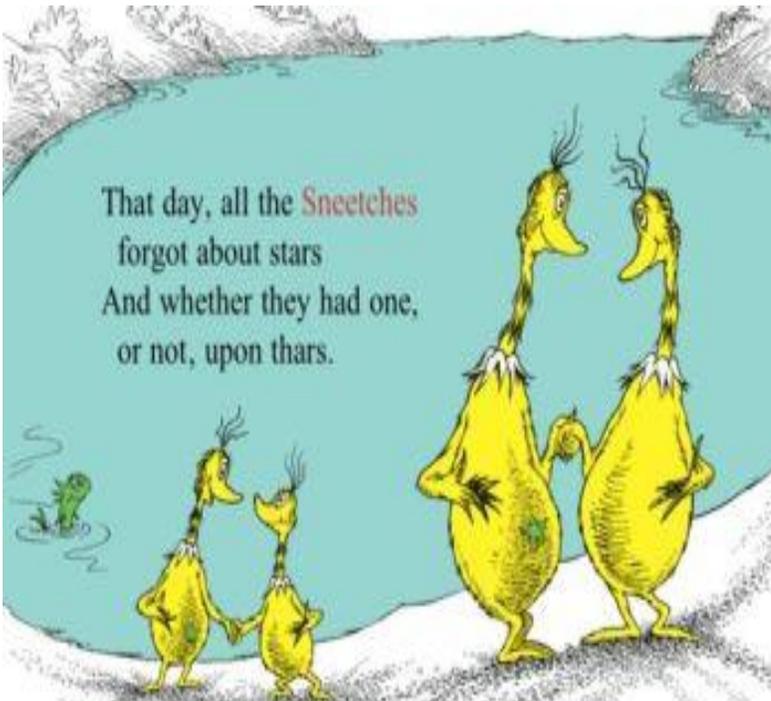

Star Wars video games are fun for all people. The games practically bring Star Wars to life. You can fly iconic ships and play famous battles.

You can choose who you want to be and where. Some of the most popular games are **Battlefront, Battlefront 2, Jedi Fallen Order, Star Wars Squadrons, Lego Star Wars Games,** and so much more. My favorite games are **Battlefront 2 and Jedi Fallen Order.**

My friends and I really like to play Star Wars games all the time. You can get these games on a lot of different consoles, I play on PS4. It is fantastic to play Star Wars games. I highly recommend them!

Mrs. Fountain's first grade class's bulletin board says, "Mirror mirror on the wall there's a

leader in us all." The students each made a self-portrait.

Miss Zegarski's third grade class made a bulletin board about the future, it states "the future of the world is in this classroom today" they hope kids in this generation will be

successful in the future.

## **Changing the World One Day at a Time**

My dream is to change the world because I want to live in peace. Living in peace means that no one will have to worry about finding food, finding a home, or finding a family. The world is a delight, but you need to fight for what is right. I want to end world hunger. I can do that by volunteering at the local food banks. I can also encourage others to donate items to the food banks. Also, I want to help the sick kids in the hospital, visit them, and care for them. Since they are sick, I want to put a smile on their face so I could bring them snacks, toys, and crafts. I want to help as much as I can. I want to help the elderly and donate money so they can get their medicine. I would earn money by selling cookies or other items to my neighbors, cleaning up the highway, going to people's doors and asking if they need help with anything, or doing community work. When I'm older, I want to adopt homeless kids and help the homeless people. I will change the world by giving them a better life. I want to give them the water, food, and clothes they deserve. I also want to help animals that are endangered species. I can help by recycling and taking better care of their habitats and having my friends and family do the same. I also want to help the Earth. We need to recycle more and use less water. You need to help now as well to see change. Ask how and just do it now. If you believe in you, then I believe in you. I believe you can help me change the world. I believe that together could achieve a healthier and happier life.

**I am in the Division 1 Matryoshka structure Om (Odyssey of the Mind) team for DVES. There are three parts in the competition: spontaneous, structure, and the skit.**

**Spontaneous is called “Spontaneous” because the team doesn't know what the problem is until they get in the room.**

**In structure my team must build a structure that is 8 inches tall, and it must weigh less than 18 grams.**

**For the skit we created an electronics store called the “Smart Store.” In the store a computer bug made all the devices glitch and made all the apps fade away.**

**Our team competed Saturday, March 19, 2022, for the Regionals at Pocono Mountain West High School. It was a fun experience for me. The best part was spending time with my team and performing in front of my family. Our team is very excited to compete in states and hopefully worlds.**

PTA they organize The Sweetheart Dance, February, and Candy Bar Bingo, which is coming up in April. Mrs. Lellwyn said the PTA raised money to hire people to paint on the windows of the cafeteria, which look great.

**Mrs. Dillon, 2nd Vice President**

# How to Grow a Garden

By:Helaina

**First decide what you'd like to grow.**

**Then pick a spot (somewhere that gets a lot of sun).**

**Get in basic garden tools and choose the right seeds**

**Either make a raised garden bed which is a rectangle of wood with soil in it or dig a small indent in the ground.**

**Plant your seeds when it is nice and warm and water them frequently.**
