

Senior Zoe Workstel is a critical member of the high school's math peer tutoring program. She faithfully attends every Wednesday to help other high school students understand certain math skills. "Being a math tutor makes me feel like I have been making a difference with the school," she said. Workstel is also an AP scholar and a member of National Honor Society. She is also a member of orchestra, chorus, and chamber orchestra. She also participates in dance. "Being involved has shown me responsibility and has allowed me to feel like I am part of a group," she said. She wants to be remembered as a person who is smart and passionate about what she is learning.

Senior cheerleader Jaily Cepeda is not only wowing fans in the gym but also she is a standout student at Delaware Valley High School. Cepeda is a member of the varsity football and competition cheerleading teams. Her tumbling pass is a round off, back handspring, full twisting layout, back handspring, back handspring, full twisting layout. According to head coach Jen Simonsen, this tumbling pass is an elite pass that is unheard of at the high school level. Off the mats, Cepeda is a member of Student Council, Teens Against Tobacco Use and Peer Buddies. Cepeda consistently appears on the high roll. She is also a pole-vaulter for the varsity track and field team. Last year, she placed 3rd in Districts in pole vaulting. "Being involved in school activities was the best decision I have ever made," she said. "I have met some of my greatest friends through cheerleading. I has had a positive impact on my life emotionally and teaching me the value of teamwork and overall hard work." She has also volunteered for United Way's Day of Caring, the Humane Society, YMCA camp and many cheerleading youth camps. "I want to be remembered as someone who was respected, kind, diligent in school work and honest. Someone who will have a successful future," she said. She is looking to attend either Rutgers University or the University of South Carolina. There she wants to major in biology and be a part of the cheerleading squad.
