

Ms. B's Buzz...

Merry Christmas and Happy Holidays to you!

One of the wonderful aspects about working in our Primary school is experiencing the holiday excitement through the children's eyes. Whether a child is excited about a winter decoration, cookies, Elf on the Shelf, a Christmas bow or holiday socks, the magical feelings of the holidays are overwhelmingly apparent!

The years go by so quickly. Although we cannot keep our children young forever, we can provide them with wonderful memories to last forever. During this festive season, it is important to remember to give your children the **gift of time**. There is no other gift that is so valuable! The **gift of time** will create beautiful memories for your children. The word kindness often comes to mind, especially during the month of December. Kindness happens every day in our building. Inspire your child to do acts of **kindness**! There are so many things we all can do to **make a difference for others**.

As the holidays are quickly approaching, we will try to add even more activities to our already busy schedules such as holiday photos, shopping lists, gifts, baking, making holiday travel plans, attending holiday shows and preparing for family and friends to visit. The hustle and bustle will quickly surround us. Remember to take **time to reflect** and **appreciate what is truly important** in life.

Thank you for all you do at home to make a difference. **Thank you** for supporting our school and our PTA. You help to make DDPS a very wonderful and special place for kids!

On behalf of the DDPS faculty and staff, I wish you the most **joyful holiday** season.

Thank you for sharing your children with us!

Kim Butaitis
Principal
