

Flexible Online Learning for Your Student

Often, a one-on-one approach is what it takes to realize a child's innermost possibilities. Tuition-free, online public schooling with Delaware Valley Cyber Academy, offers an education that adapts to fit every child.

Because DVCA students are full-time Delaware Valley School District (DVSD) students they may participate in Co-Curricular academic, athletic, and social opportunities available to all district students. Although learning is done virtually, students' progress and achievement will be monitored and assessed throughout their enrollment in the program via an individualized learning plan.

Are You...

- Interested in extending your extracurricular activities to a higher level of participation or increased competition level?
- Looking to enrich your academic experience with a flexible schedule?
- A learner who is ready to learn at your own pace rather than the pace of the class?
- Desiring to strengthen your academic skills with challenging, dynamic online courses?

Accreditation

Delaware Valley Cyber Academy has partnered with Connections Education, a division of the global education leader, Pearson, which has delivered successful virtual school instruction to hundreds of thousands of students in the last decade. Connections Education is accredited by AdvancED.

How to Enroll

To enroll, please call 570-409-2024 and our team will provide all the necessary information.

CONNECTIONS LEARNING® by Pearson

Delaware Valley Cyber Academy provides an excellent alternative to the traditional school environment

Why Choose Delaware Valley Cyber Academy?

Families and students in kindergarten through 12th grade choose Delaware Valley Cyber Academy for many different reasons, but what they share is a desire for the best possible learning experience. For elementary, middle, and high school students, Delaware Valley Cyber Academy provides an excellent alternative to the traditional school environment.

What We Offer

- A high-quality, public school education
- Support from passionate, experienced, professional teachers
- Flexible pacing
- An individualized approach to learning
- An active, supportive school community
- An exceptional curriculum developed by Connections Education specifically for online learning

Quality Curriculum is Key to Success

The curriculum used in the Delaware Valley Cyber Academy has been specifically designed for use in online instruction and time-tested for over a decade. Our curriculum lays the groundwork for future academic success by:

- Building a solid foundation in reading, writing, and mathematics
- Developing lifelong learning and analytical skills
- Encouraging exploration, critical thinking, and problem solving

Involved Parents/Guardians Ensure Success

Involved parents or guardians play a vital role at the Delaware Valley Cyber Academy. Parents or guardians work closely with students and their teachers to help develop and deliver an individualized approach to instruction and learning. The parent or guardian supervises the student's daily activities, encourages progress, and communicates regularly with the class teacher to ensure the student stays on track.

Technology Makes It Possible

Delaware Valley Cyber Academy uses Connexus®, a proprietary technology built specifically for online instruction in grades K-12 which allows us to bring the classroom to any student via an Internet connection.

Under the direction of certified teachers, students access and complete coursework online, as well as submit some assignments by mail. Students, teachers, and family members communicate through our own secure email system, on dedicated message boards, or by telephone. Our online grade book allows students and parents/guardians to track their progress at any time of day or night. Families can also monitor all students within the household easily from the system home page.

Fully Accredited, Customized Learning

Imagine an outstanding, engaging program customized to each student's unique talents, challenges, and schedule. Our personalized approach empowers students to learn in a way that is suited to their strengths and needs.

How Delaware Valley Cyber Academy Works for K–12 Students

- Access courses anytime, anywhere.
- For some courses, students attend periodic synchronous online classes with help and instruction by live online teachers.
- Course solutions address multiple learning styles: auditory, visual, and kinesthetic.
- All of our courses meet or exceed state and national standards.
- Upon successful completion, graduating students will be eligible to receive a Delaware Valley High School diploma.
